

CORE MINI

Petite yet powerful.

The Basalte Core server is the beating heart of the Basalte Home visualisation, which offers a comprehensive set of functionalities for home automation systems: from light and shade control, multiroom audio, to the native integration of third-party solutions like Philips Hue, door phones, AV hardware and more. Our core server now also comes in a 'mini' version, capable of meeting the needs of luxury homes worldwide, but in a small form factor!
